Outlook Promising.

Mr. J. J. C. Bond, traveling salesman for the Curry Grocery Company, has just returned from a trip through Mercer, Boyle, Garrard, Jessamine, Woodford, Washington, Lincoln and Anderson counties and in a conversation with the Harrodsburg Democrat, he said: "I never saw such fields of corn and tobacco as in the above named counties. Corn is finer and heavier than I have ever known it to be. Tobacco is nearly twice as heavy as in usual years. Owing to the comment in the papers regarding the scarcity of tobacco worms, I have talked with a number of leading farmers regarding the subject, and without exception they replied that there are fewer of the pests this year than for the past decade. Tobacco that has been cut and put in the barn is curing up nicely, and producers anticipate realizing a fancy price for the weed this fall. Corn is selling in the field at prices ranging from \$1 to \$1.25 per barrel, and the price for it delivered is about 25 cents more on the barrel. In most sections ground for fall wheat if being broken, and in but very few localities is too hard to plow. Meadows were fine and nine farmers out of ten have plenty of hay and oats to feed their stock during the winter. In the knobs of Lincoln county the chestnut trees are loaded down with fruit. Residents of the knobs say they can't remember when there has been a more prolific crop. In general the farmer is satisfied with the outlook. Trade in the grocery line has increased wonderfully within the last two or three months."

Manila cigars are being smoked by few in the United States at present. It is said by those who know, they are not equal to our seed cigars.

Pumpkins furnish succulence and are excellent to give variety to the rations for the swine. They are highly fattening. Hogs do not always take to them readily, but a fondness will be soon developed.

If a poorly bearing orchard has too much wood growth, soon down to grass; but the result must be watched, as the grass will absorb the moisture rapidly. The arrangement must be but temporary, as to gather a crop of grass and fruit from the same land will result in disaster always.

DeWitt's Witch Hazel Salve has the largest sale of any Salve in the world. This fact and its merit has led dishonest people to attempt to counterfeit it. Look out for the man who attempts to deceive you when you call for DeWitt's Witch Hazel Salve the great pile cures Storms Drug Store.

Mr. William Kenney, of Fayette county, raised 200 bushels of Irish potatoes and about 15 barrels of corn on one acre of land says an exchange.

Mr. Kenney planted the corn when he laid his potatoes and never put a hoe to the corn except in the portion where he dug potatoes. He says the corn absorbs the dampness and prevents the potatoes from taking a second growth, thereby benefiting one crop and making another on the same ground.

Squire Myers sold to Robert Collier 30 acres of corn at \$10. per acre. Mr. Collier turned in 120 hogs on one piece containing 5 acres which lasted the 120 hogs 18 days. Who can best that? Mr. Collier says he is satisfied it has not cost over 75 cents per barrel. If Mr. Myers makes as good an Esquire as he is a corn raiser, we will re-elect him.
